Summary

I am a skilled frontend developer with over 3.5 years of experience specializing in Angular and TypeScript. I excel at building high-performance web applications, implementing state management, and integrating with RESTful APIs. My commitment to teamwork and continuous improvement.

Experience

FRONT END ANGULAR DEVELOPER | HARVEST DESIGNS | JULY 2022 - PRESENT

The project aims to develop an E-commerce web application tailored for the electric industry, catering to catering to contractors, manufacturers and dealers. They perform connect three key roles - User, Seller and Admin allowing seamless transactions of electrical products.

RESPONSIBILITY AND CHALLENGES

- **Develop user module:** create the user interface for contractor and technical users ,making it easy for them to browse and request quotations.
- **Request handling and work flow integration:** built the system that sends user requests through the admin to sellers. Faced challenges with ensuring smooth data flow ,which required optimizing how request where handled.
- **Api integration and data management:** integrated api to manage product listing and requests Deals with issues like inconsistent data and response delays,which were solved by adding error handling and data validation.
- **UI/UX Improvements:** enhanced the user experience by making the interface more intuitive and responsive. Overcome challenges related to complex navigation by designing modular and reusable components.
- **Performance Optimization:** improved the app speed and efficiency by addressing slow loading and optimizing how components were displayed . used strategies like lazy loading and reducing unnecessary data calls.
- **State Management:** Used Rxjs to manage data flow across the web application ,making it more organized and easier to maintain . faced challenges in keeping data consistent but solved them by structuring the store well

• Integrated real-time components using Angular and RxJS, enabling users to monitor product operations seamlessly.
• Collaborated with UI/UX designers to create user-friendly interfaces, ensuring alignment with business goals and user needs.
• Developed reusable components and services, enhancing code modularity and reducing development time for new features.
• Optimized application performance, resulting in faster load times and improved user satisfaction.
 • Angular10, RxJS, TypeScript,

UI DEVELOPER | HARVEST DESIGNS | JAN 2021 – JULY 2022

· Proficient in HTML5, CSS3, and JavaScript (ES6+)
· Experienced with frameworks like Bootstrap4 and CSS.
· Familiarity with UI component libraries like Angular Material
· Knowledge of JavaScript frameworks like Angular
· Understanding of responsive web design and mobile-first approach
· Familiarity with version control systems like Git

Education

BACHELOR OF ENGINEER | NOV 2020 | SRTMU NANDED

Skills & Abilities

Technical Skills : Angular 10,Angular 14, Angular Material, Typescript, JavaScript (ES6), AJAX, JSON, FLEX, SASS, Bootstrap4, CSS3, HTML5, RxJS, JQuery,Node.js(basic knoledge)

Control IDE & Tools : Visual Studio Code, Angular-CLI, Jira
